(54) Title: **MEDICAMENT DISPENSER**

(57) Abstract: There is provided a unitary dispensing device for use in the delivery of a first medicament and at least one further medicament. The device comprises a first medicament dispenser (330) for the delivery of the first medicament and at least one further medicament dispenser (340) for the delivery of the at least one further medicament. The first medicament dispenser (330) and the at least one further medicament dispenser (340) enable the first and the at least one further medicament to be kept separate until the point of delivery. The first medicament dispenser (330) is different in type to the at least one further medicament dispenser (340).
